

EMIRPLAST

Pipeline systems

Created with care about your business, budget and
safety of your home

emirplast.com

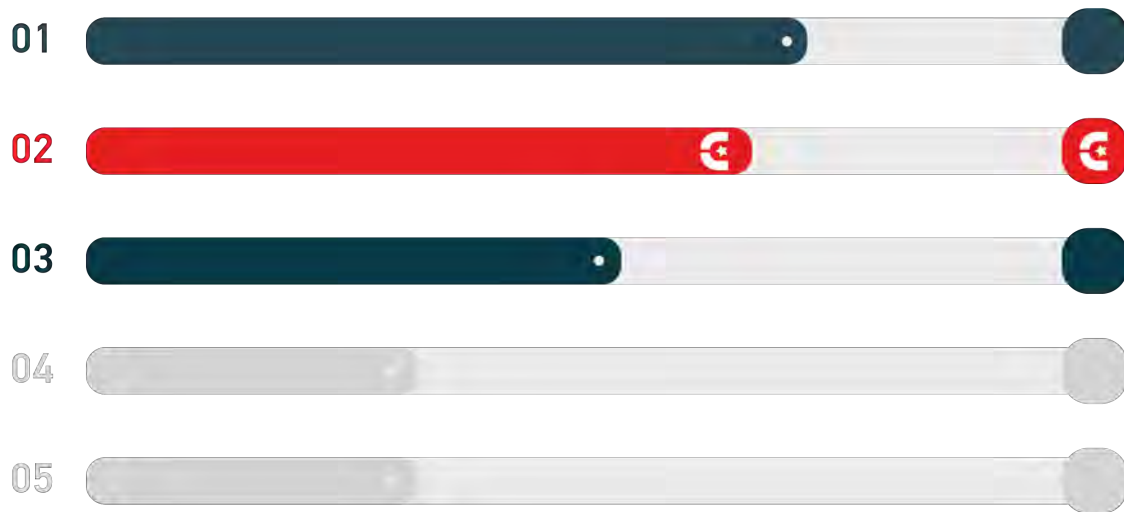

About us

Emirplast is a brand of
Güray Metal Plastik A.Ş. who produces
semi-final and final products for
sanitaryware and heating systems, whom
trusted by sector leaders for 50 years.

Reliable brand in 40 countries

We are glad to serve to a big region from **Afghanistan** to **Italy**
and from **Nigeria** to **Russia**

We are proud of being one of TOP
3 Turkish **PPR Pipeline
Systems** exporters.

We focus on developing our brand while our competitors are interested in conquering their existing markets.

Unlike our competitors, we have only one brand and exclusive distributors in different countries.

Our goal is to increase the market share and income of our partners by creating a strong and always growing brand.

Three factories,
in **Two** countries,
focused on the same target.

As a fully integrated producer; we produce brass rods (raw material) , plastic pipes and fittings, brass fittings and valves in our own factories.
